This sketch of the Walsh General Store will be familiar. Mr. Ed Walsh ran this store on Church Street and is well known to all of the regular summer people in town.

LEGISLATORS URGED TO OPPOSE GAS TAX HIKE

Massachusetts legislators were urged to oppose any move by Governor Peabody to increase the state gasoline tax.

In a letter to the legislators, Frederick H. Moore, executive secretary of the Retail Gasoline Dealers' Association of Massachusetts, declared each time a Bay State motorist now fills his tank, he pays about $1.50 just in taxes.

Moore said Governor Peabody's recent announcement that he'll seek a hike in the present state gasoline tax of 5 1/2 cents "will be unalterably opposed by the thousands of service station dealers in Massachusetts."

He told the legislators the state tax coupled with the federal tax of four cents a gallon for a total of 9 1/2 cents "adds up to a retail sales tax of about 55 per cent."

"A sales tax of this proportion on an everyday commodity like gasoline is too high," Moore wrote the legislators. "And, yet," he added, "they're talking about making it even higher."

In urging them to vote against any attempt to boost the present state tax, Moore said from converstaions with their customers, the retail dealers are convinced "of the deep resentment among the motoring public against any additional tax on gasoline."

According to news reports of Governor Peabody's recent press conferences, Massachusetts highway users are threatened with a one-cent a gallon increase in the state tax on gasoline. This, of course, would extract another $15 million a year from the motorists to be added to the more than $300

millions they already are paying each year in special state and federal taxes and fees.

This is extremely disturbing to the highway users and not simply because no one really likes to pay additional taxes. The highway users are extremely disturbed because no one has bothered to disclose (a) exactly how current highway user revenues are being expended, and (b) just how it is proposed to spend the additional $15 million. They also are disturbed about the continuing investigations by federal and state agencies into the administration of the highway program in Massachusetts, and the withholding by the federal government of millions of dollars in federal highway aid. There are many questions to be answered before Massachusetts highway users will look kindly on any proposal to increase existing gasoline taxes.

Dear friends,

Our Funeral Home is equipped with air conditioning. It adds much to the comfort of visitors.

It is particularly useful, we notice, when large groups are assembled here for funeral services. Fresh, pure air is constantly circulated. The rooms are cool and comfortable always.

Respectfully,

Carl C Cornwell
